

Support for NHSLA scheme members

Support Visits for Healthcare Organisations

Founded in 1864, DNV is a global provider of services for managing risk with the objective of safeguarding life, property and the environment. At DNV we specialise in helping organisations to improve their risk management systems and have been appointed by the NHSLA to develop and maintain standards and to undertake assessments.

Healthcare organisations can face challenges in developing and implementing risk management systems and demonstrating compliance with the requirements of the NHSLA and CNST standards. These challenges often result from a lack of knowledge of the standards or poor engagement from staff.

To assist in meeting these challenges DNV offer support visits to NHSLA scheme members, providing extra guidance beyond the current scope offered by the schemes.

Our visits are tailored to your specific needs and can cover topics such as how to successfully monitor compliance; policy writing; preparing for assessment; or even undertaking a mock assessment.

Support visits are undertaken over a one day period and up to five visits can be requested per annum.

“For some organisations the free guidance, support and training provided in relation to the NHSLA standards and assessments is sufficient to help them maintain and move through the levels and implement safe risk management practices. Others, however, would benefit from more assistance and for this reason the NHSLA is pleased that DNV are now able to offer such organisations an opportunity to purchase additional support visits focused on their specific needs”, comments Alison Bartholomew, Risk Management Director at the NHSLA.

It is important to note that the visits focus on learning through facilitation, and at no time can the assessor complete the work for the organisation. Nor will additional support visits guarantee success at assessment.

For each support visit a competitive fixed fee of £795 plus VAT and expenses is charged. All visits are delivered by the assessment team.

If you would like to find out more about any of the services we provide please contact us at: dnvhealthcare@dnv.com
